# Tent Styles

*Make your event memorable!*

*Let our award-winning staff help you create the perfect atmosphere.*

Your tent choice is one of the most important decisions you will make in the planning of your event. It sets the mood for the occasion as your guests arrive, is where all the action takes place, and ultimately, is the backdrop to almost every picture taken.

*click on tents below to see more pictures for the selected style*

## Century Tents

- Fewer internal poles than traditional pole tent
- Available in larger sizes (up to 120' width)
- Engineered structure
- Can handle winds up to 70 mph (no snow load)
- Nicer shape than traditional tenting (hyperbolic paraboloid)

## Structure Tents

- No internal poles
- Available in larger sizes (up to 35 meter (115') width)
- Engineered structure
- Can handle winds up to 70 mph (no snow load)
- Can be anchored using gravity blocks or water ballasts
- Taller eave height (4 meter - 13') than any other style

## Clear Tents

- Essentially a pole tent with clear top
- Available in 40', 50', 60' widths
- Not advisable for cold weather or daytime events

## Frame Tents

- Lightweight, versatile
- No internal poles
- Can be installed without stakes (must be weighted)
- Can be assembled remotely and walked into place - useful for covering decks, patios and going over small objects (eg: bushes or shrubs)
- Available in clear top in most sizes (12', 14', 16', 20', 24', 30' & 40' widths)

## Pole Tents

- Comes in larger sizes
- Available in clear top in most sizes (40', 50', & 60' widths)
- Available in round ends in most sizes (40', 50', 60' & 80' widths)

## Connecting Canopies

- Can be used as a covered walkway
- Used to connect marquis to any other structure (such as other tent, or existing structure)
- Available in 6' and 9' widths
- Virtually any length available
